

## Principal's Message (12 August 2022)

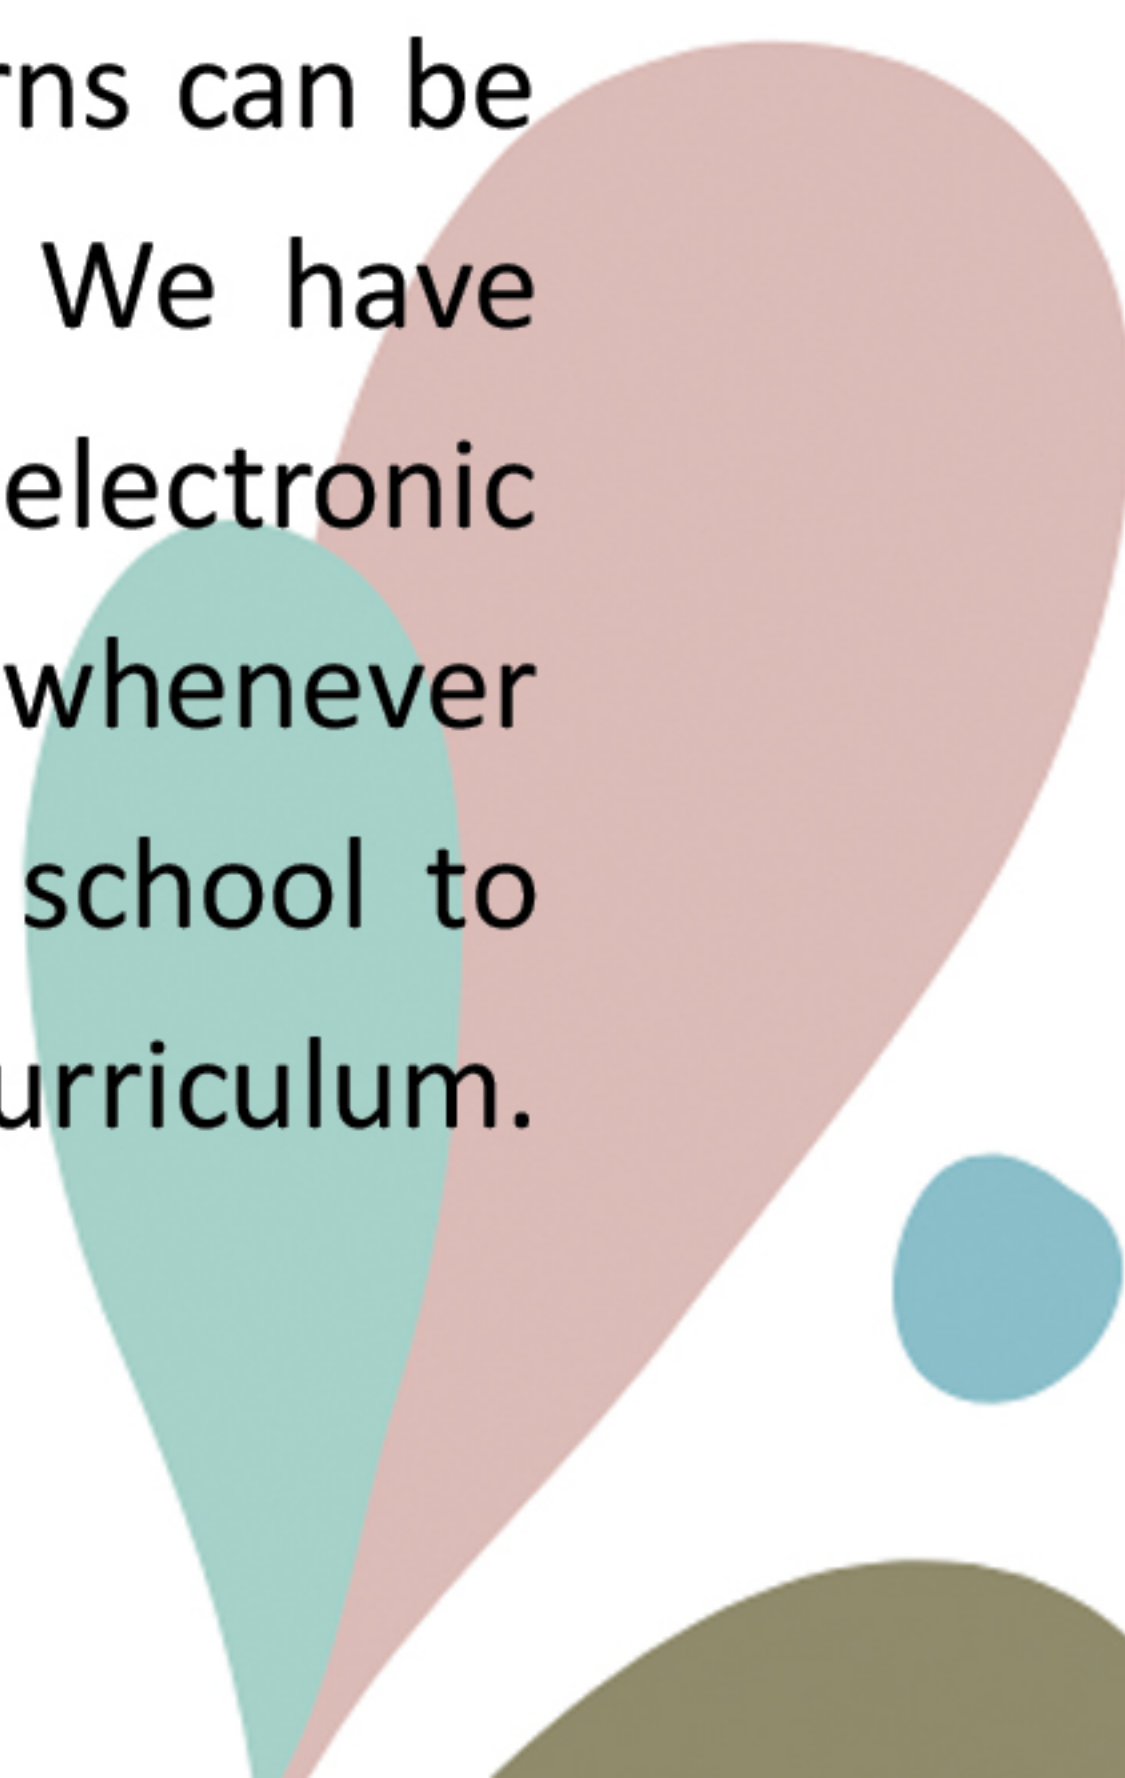

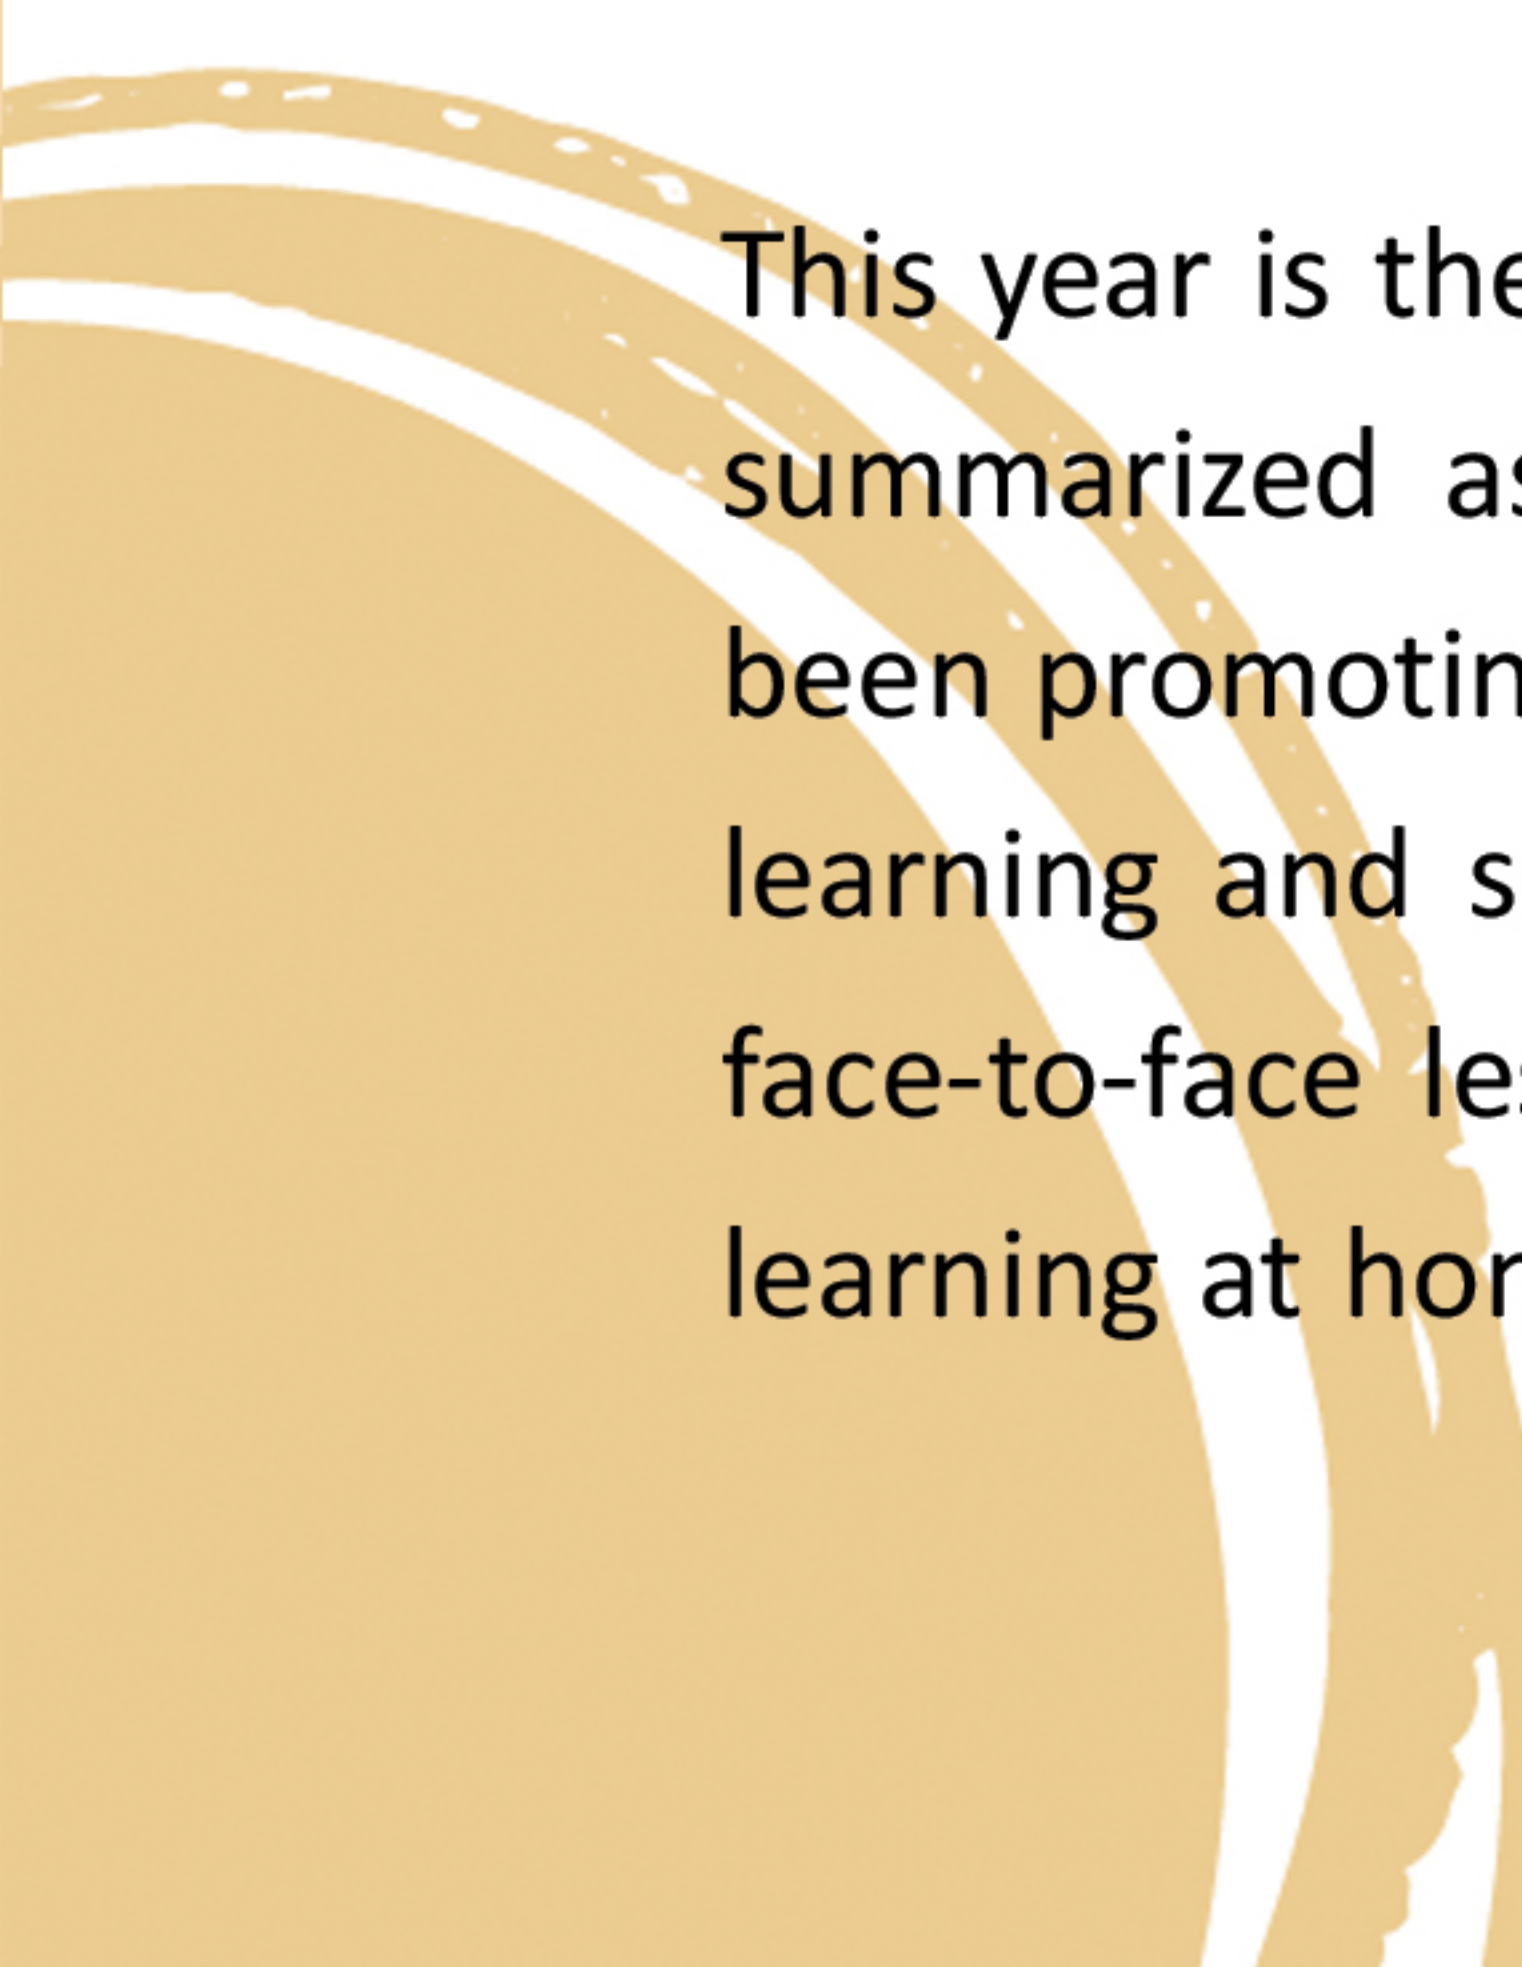

Good morning teachers and schoolmates.

This is the end of the school year 2022-23 and we are here to celebrate all the achievements in this year.

This year, we are celebrating the 40th Anniversary of our school with the slogan “Forty Years of Fruitful Education, Thousand Cheers of Blissful Celebration.”, and in Cantonese, “四十星霜 文英武傑 群賢育, 萬千桃李 黃鐘木鐸 凱歌新”. Our Anniversary Ceremony two days ago was very successful despite the unstable weather. Due to the pandemic situation, we could only arrange a small number of guests to be present face-to-face in the school hall. However, all of you could join the ceremony online and we could share our joys together through the real-time broadcast. Our drama show was highly praised by the guests. I would like to recall the messages in the drama show, “Do our Best!” and “You are never Alone!”. We are not perfect and we cannot do everything in a perfect way, but we are always trying to do better with a growth mindset. Improving ourselves is the key to success. On the other hand, we are facing lots of challenges every day, but remember that you are never alone. We, LKKCers, are caring and supporting each other all the time.

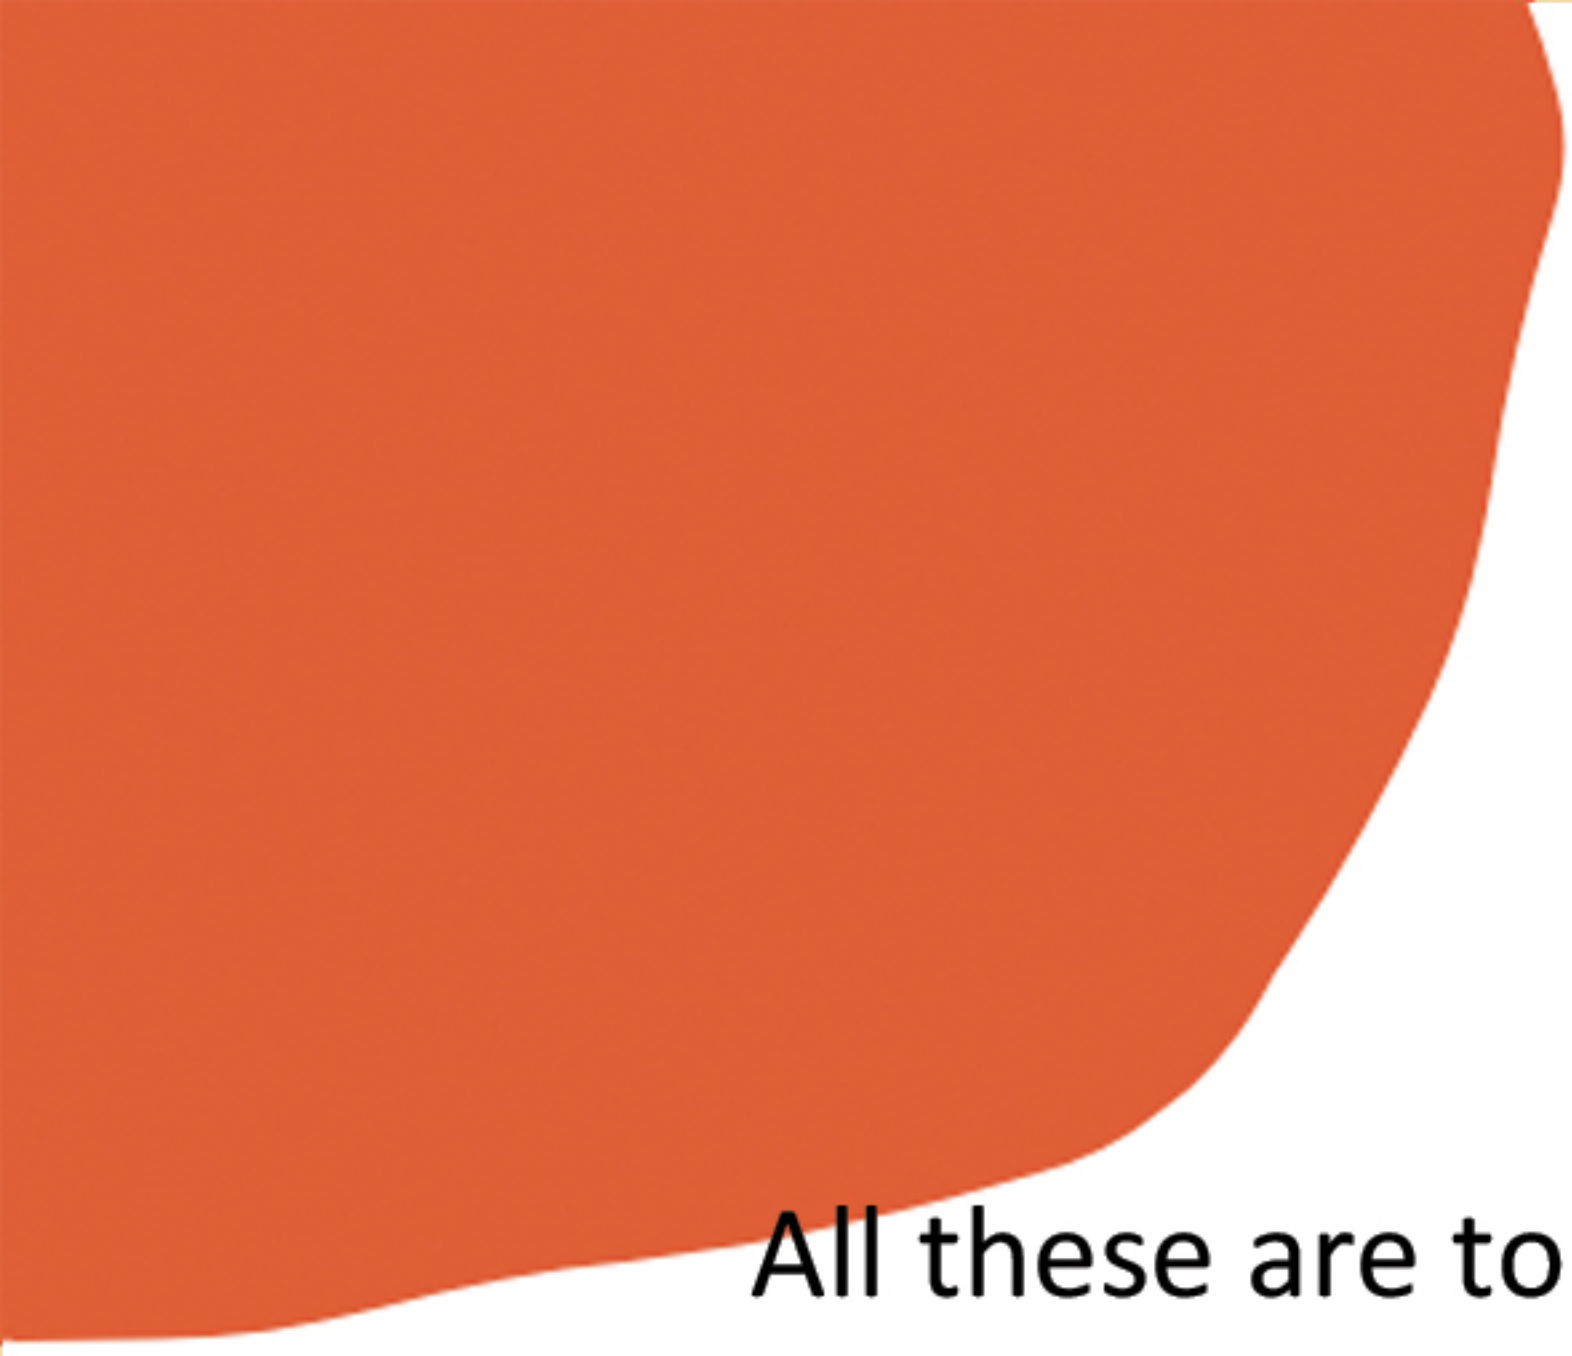

I would like to thank the IMC members, parents and alumni for their support on the development of our school. In particular, they have donated altogether over \$250,000 in this year for scholarship and upgrading our school facilities. I would like to thank the teachers, students and alumni who have paid great efforts in arranging the student activities to celebrate our 40th Anniversary. We have produced a school magazine and the Chinese Department has published an anthology. All these are just the evidence that we do our best, be our best and show our best!

Reflecting on the past school year, we have so many great memories and exciting events to look back on. The students who have performed well in various aspects will be recognized by this prize giving ceremony. Their outstanding results are basically reflected by how much effort they have paid. Please take them as your role models. I am looking forward to seeing you paying more efforts, having improvements and getting successful results in the future. Do your Best!

This year is the third year of our 3-year school development cycle. Our major concerns can be summarized as “Enhancement towards excellence. Envisioning life-wide fullness”. We have been promoting reading to learn through a wide range of activities. We emphasized electronic learning and self-directed learning. We are now ready to conduct online teaching whenever face-to-face lessons are suspended. We are now ready to extend our learning in school to learning at home after school. We have promoted positive education in our school curriculum.

All these are to create a better learning environment at LKKC.

Finally, I hope you can identify your own strengths and weaknesses, set your own goals, consider what you would like to achieve, what person you would like to become in the future, and strive for the best you are capable of. Do the Best! And you are never alone!

Thank you very much.
